DETAILED ACTION

1. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

2. Claims 1-23 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1-23 of prior U.S. Patent No. 6,638,341. This is a double patenting rejection.

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 3-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 3-5 are indefinite because there is no direct antecedent basis for the recitation of "said lesser gas pressure", as there is no previous use of the word "lesser". Claim 6 is indefinite because it depends from indefinite claim 5.

5. The remaining references listed on the PTO-1449 show art of interest, all of which were previously cited in the parent case. As Applicants have included the parent patent on their reference citation, the Examiner has not cited any additional references on the PTO-892.

6. Applicants' response to this Office action should also include the following editorial changes: para. [0001], line 2, the parent case information should be updated to include the patent number; para. [0007], line 1, "processes" should be "process"; para. [0008], line 3, "be" should be inserted after "to"; para. [0017], line 3, "a" should be "an", line 10, "all" should be canceled, and in line 11, "all" should be inserted after "substantially"; para. [0018], line 10, "cycle.," should be "cycle,", and in line 12, "particular" should be either "in particular" or "particularly"; para. [0019], line 6, "limits" should be "limit"; para. [0020], line 3, "processes" should be "process", line 4, "provide" should be "provides", and in line 7, "with either other or" should be canceled; para. [0023], lines 8 and 9, "reaching" should be "reach"; and, para. [0025], line 9, "are" should be "is".

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert H. Spitzer whose telephone number is (571) 272-1167. The examiner can normally be reached on Monday-Thursday from (5:30AM-4:00PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Duane Smith can be reached on (571) 272-1166. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
